Persona of Optional Module Choosing software

why we make this persona?	We tried to put ourselves in the shoes of different real type of users from stake holders, and we choose different types of students (students who wants to take 50-70 credits, students who want to take modules in another department, students who want to take more advanced level foreign languages, students who want to take an instruction course), module convener, staff in Student Service and a head of a department as our personas. By listing their background information, we could analyse if the design could meet their requiement.						
Name	Alexander	Meredith	Chris	Elizabeth	Jackson	Anna	Lucas
Gender	Male	Female	Male	Female	Male	Female	Male
Occupation	student	student	student	student	Module Convener	staff in Student Service	Head of a department
Grade	Year 2	Year 3	Year 4	Year 2	/	/	/
